# STEP 2: EXPLPLORE STREAMLIT UI

# HOW TO GENERATE LOW COST AI LOGOS

## STEP 3: CONFIGURE LOGO PROMPT

*HOW TO GENERATE  
LOW COST AI LOGOS*

# **GLOSSARY**

## **API KEY**

***API Key: An API Key is a special password that allows programs to talk to each other securely. It's like a secret handshake that lets your computer use cool tools and features on the internet.***

## **UI**

***UI (User Interface): UI is how a computer program or website looks and how you interact with it. Imagine it like the buttons on your TV remote or the layout of your favorite video game – it's what you see and touch.***

LOW COST AI LOGOS*

# **GLOSSARY**

## **AI**

***AI (Artificial Intelligence):*** AI is like a smart robot that can learn, make decisions, and do tasks on its own, helping us create cool things without needing to be tech experts.

## **PROMPT**

***Prompt:*** A prompt is a question or statement that tells an AI what to create or do. It's like giving instructions to a friend on what to draw or write about.
